RE: Student Attendance

This past year, Chester High School administration has seen a decrease in student attendance. Attendance in school is mandatory and necessary to meet critical academic goals. Chester High School administration is monitoring student attendance, and will require any student absent for 10 consecutive days to re-register for school before they will be eligible to return. CHS administration will continue to be vigilant in contacting parents to notify them of truancy issues.

We all have to work together to ensure our students attend school, and that we as the adults set the criteria for high expectations. Not only is attending school required by law, it is every high school student's responsibility to come to school daily prepared to learn. As we work to prepare our students for the real world, it is essential we state what the expectations are; and from this point on, attendance will be a major criteria in which a student will be evaluated for grading, promotion and graduation requirements here at Chester High School.

I look forward to continuing to work with students, parents and staff in accomplishing the goal of increasing student attendance.
